History

- The French Revolution (1789) spread ideas of liberty, equality and fraternity.
- The Russian Revolution (1917) established the world's first socialist state.
- Nazism rose in Germany under Hitler after the First World War.
- Forest societies and pastoralists were deeply affected by colonial rule.

Geography

- India lies in the Northern and Eastern hemispheres; the Tropic of Cancer divides it.
- Major physical features: the Himalayas, Northern Plains, Peninsular Plateau, coasts and islands.
- The Ganga and Brahmaputra are major river systems (drainage).
- India has a monsoon type of climate.

Political Science (Civics)

- Democracy is a government elected by and accountable to the people.
- The Constitution lays down the rules by which a country is governed.
- Elections let citizens choose their representatives.
- Fundamental Rights protect citizens against misuse of power.

Economics

- The story of Palampur shows how farming and non-farm activities work together.
- People as a resource: education and health make people productive (human capital).
- Poverty is measured using a poverty line based on minimum needs.
- Food security ensures availability and access to food for all.
