Great Uses of AI

- Ask AI to explain tough concepts in simpler words or with analogies.
- Generate extra practice questions and quizzes on any chapter.
- Have AI test your understanding and point out gaps.
- Use it to summarise your own notes and structure essays.

Lines Not to Cross

- Never copy AI answers into assignments or exams – that is not learning.
- AI can be confidently wrong – always verify facts with your textbook.
- Do not let AI replace your own problem-solving practice.
- Skills you borrow disappear the moment the tool is gone.

The Golden Rule

- Let AI explain HOW; then solve similar problems yourself, by hand.
- Practise until you can do it without any help.
- Combine AI for quick clarity with real teachers for depth.
- Understand, do not just get the answer.
